

AERIAL INTELLIGENCE · C-UAS DETECTION · PHOTOGRAMMETRY & DIGITAL TWINS · PROTECTED VENUE SUPPORT · NDAA-COMPLIANT PROCUREMENT

Aerial Intelligence for Federal, Defense, and Public Safety Operations

Heightened Senses delivers NDAA-compliant uncrewed aircraft systems, counter-UAS detection, and rapidly deployable aerial intelligence for federal, defense, tribal, and public safety agencies. Systems are integrated and fielded by operators with real counterintelligence, HUMINT, and mission experience, enabling protective details, advance teams, technical security units, and incident commanders to see, hear, and sense first.

Government Need: Rapid Aerial Situational Awareness for Protective Advances, Site Surveys, and Incident Response

HOW WE MEET IT

Deploy the Red Cat Black Widow tactical ISR quadrotor for close-in surveillance of venues, motorcade routes, sensitive sites, and dynamic incident scenes. 45-plus minute endurance, integrated EO/IR, AI-assisted target recognition, quiet acoustic signature, and GPS-denied navigation via Palantir VNav in contested electromagnetic environments.

WHY WE CAN DELIVER

Authorized Red Cat Holdings reseller. Black Widow is Blue UAS Cleared and a U.S. Army program of record. Executed OEM fulfillment partnerships with ARK Electronics and Desert Rotor.

Government Need: Area Reconnaissance, Event Planning, and Site Documentation via High-Precision Aerial Data

HOW WE MEET IT

Produce high-resolution orthomosaic maps, 3D models, and digital twins of venues, routes, critical infrastructure, and dynamic sites. Pix4Dmatic supports precision pre-event planning, advance work, and forensic documentation. Pix4Dreact delivers rapid 2D mapping for incident response and time-sensitive operations. Data products support TTX planning, course-of-action development, and post-event review.

WHY WE CAN DELIVER

Pix4D Certified Trainer in both Pix4Dmatic and Pix4Dreact (2025). FAA Part 107 Remote Pilot. Registered on the Disaster Response Registry. Qualified under NAICS 541330 and 541715. Veteran operator team.

Government Need: Counter-UAS Detection and Airspace Awareness for Protected Venues, Special Events, and Critical Sites

HOW WE MEET IT

Layered passive detection mission packages combining RF spectrum sensing, compact radar, EO/IR cuing, and Remote ID monitoring for perimeter airspace awareness at protected sites, special events, correctional facilities, and critical infrastructure. Passive detection is deployable by state, local, tribal, and territorial agencies under current federal authorities and aligns with federal grant programs supporting drone detection acquisition.

WHY WE CAN DELIVER

Founded by a USMC Gunnery Sergeant with a CI/HUMINT background. Detection systems delivered through executed OEM channels, with program design, policy and OPLAN support, and proficiency training support.

Government Need: Secure, NDAA-Compliant Procurement Pathway for Federal, Defense, and Public Safety Operations

HOW WE MEET IT

Source and integrate Blue UAS Cleared platforms and NDAA-compliant subsystems through a SDVOSB contract vehicle. Satisfy Buy American, Blue UAS, and federal restrictions on foreign-manufactured drones. Enable set-aside task orders and sole-source pathways under FAR 19.14.

WHY WE CAN DELIVER

SBA-Certified SDVOSB with active SAM registration through April 2027. SPRS scored. Executed OEM agreements across platforms, avionics, and ground control.

Executed OEM Channel

Red Cat Holdings Authorized reseller. Black Widow tactical ISR, Trichon hybrid VTOL, FANG FPV family. Blue UAS Cleared platforms. Army Program of Record.

ARK Electronics OEM Fulfillment Partner. NDAA-compliant flight control, avionics, and GNSS. Direct drop-ship support to federal end users.

Desert Rotor Authorized fulfillment partner. MIRA X ground control station. Blue UAS Framework listed, made in USA.
